

COMP 3311: Database Management Systems

Lab 3 Exercise: SQL Basic DML Statement

WHAT TO DO

1. **Download** the zipped folder **Lab3ExerciseFiles.zip** from the *Lab 3* entry of the *Lab Assignments* section on Canvas to the desktop and unzip it. The folder contains two SQL script files **lab3db.sql** and **lab3Queries.sql**. The **lab3db.sql** script file drops (deletes) the **Student** table previously created, if any, and creates two tables **Student** and **AcademicUnit**.
2. **Place** your **insertMyself.sql** script file constructed in the previous lab inside the **Lab3ExerciseFiles** folder.
3. **Execute** the **lab3db.sql** script file in **Oracle SQL Developer**. The last line with the **@** symbol in the **lab3db.sql** script file causes the referenced **insertMyself.sql** script file to be executed.
IMPORTANT: A referenced script file must reside in the same folder as the script file that references it.
4. **Modify** the **lab3Queries.sql** script file by constructing SQL queries in the specified locations in the script file.
Note: You can test each of your queries individually by placing the cursor anywhere within the query and selecting the **Run Statement** button.
5. **Test** your queries to ensure that they execute without errors.

EXPECTED QUERY RESULTS

NAME
1 Ferris Bueller
2 Warren Buffet
3 Elon Musk
4 Alan Turing

Query 1

NAME
1 Ferris Bueller
2 Warren Buffet
3 Harry Potter

Query 2

Id	First name	Last name	Email	CGA
1 28834512	Isaac	Newton	manewton	2.98
2 16789012	Robert	Redford	maredford	2.57
3 26184624	Bruce	Wayne	eewayne	2.47
4 14567890	David	Decker	eedecker	1.49

Query 3

STUDENT NAME	CGA	UNITNAME
1 Steve Jobs	3.56	Department of Computer Science and Engineering
2 Typical Student	3.56	Department of Computer Science and Engineering
3 Alan Turing	3.56	Department of Mathematics

Query 4

Your information should be shown in place of the highlighted results shown in Queries 4 and 5.

STUDENTID	STUDENT NAME	CGA	UNITNAME
1 15000655	Steve Jobs	3.56	Department of Computer Science and Engineering
2 11111111	Typical Student	3.56	Department of Computer Science and Engineering
3 15085942	Bill Gates	3.4	Department of Computer Science and Engineering
4 26186666	Warren Buffet	3.43	Department of Management

Query 5

WHAT TO SUBMIT

Your modified **lab3Queries.sql** script file containing your SQL queries.

HOW TO SUBMIT

By 6:00 p.m. tomorrow, upload your modified **lab3Queries.sql** script file to the *Lab 3 Assignment* on Canvas.

Note: You will only be able to submit a file with extension **sql**.

TEST YOUR SCRIPT FILE – USE ONLY SQL CONSTRUCTS DISCUSSED IN THE COURSE

The SQL queries in your submission will be tested by executing them against the **lab3db** database. If any query raises an SQL error or if you use SQL constructs not discussed so far in the course, then you will receive at most 0.5 marks for this exercise. Therefore, test your SQL queries against the **lab3db** database before you submit them and use only SQL constructs discussed so far in the course.
